

Healthy Kiwi Kids presents...

Childhood and Homeopathy *Healthy Mental and Physical Development*

*a weekend seminar with **Jürgen Weiland** from Germany*

Nourished from his rich experiences with his own cases, and the examination of both the philosophical and psychological streams of Rudolph Steiner and C.G. Jung, Jürgen Weiland will present a unique seminar concept - he will richly illuminate the journey of the child's soul through homeopathy.

Jürgen has developed a systematic understanding of the Materia medica, along with a modern approach to teaching and case presentation.

During the seminar he will touch many senses using both old and modern methods of case management.

Seminar Topics

About Jürgen Weiland

Jürgen lives and practises homeopathy in Bonn, Germany, where he has been running a clinic since 1992. For 15 years he has been teaching internationally, giving lectures and seminars, and working as a supervisor for homeopathy.

In addition to this, he has many years of experience in training midwives how to use homeopathy during birth. This special field of work and his deep analysis of themes about pregnancy, birth and early childhood, have profoundly influenced his understanding of remedies. In recent years Jürgen has been working on a systematic understanding of the *Materia medica* during the primary period.

Especially when treating babies and younger children, the knowledge of remedy systems can ease the way to finding the right remedy for this period.

In his lectures Jürgen appreciates how to transfer his knowledge in a vividly diverse and visual manner. Equipped with a precise power of observation, he presents well-researched and documented cases and their substances.
