

## Venue

King's School, 3280 Nottingham Road. Besides the grounds and gardens, King's School also provides a dam and amphitheatre. A basic, but comfortable accommodation will also be available in the school dormitories - the cost is R100 per night. Camping or caravan is possible in the school grounds - the cost would be R50 per person per night. We serve tasty, simple, natural vegetarian cooking - Ayurvedic/Indian, Middle Eastern and Thai catering. The cost for two breakfasts and suppers will be R150pp (The cost of teas and lunch is included in the seminar fee).

All fees will be refunded for bookings cancelled by 15 December 2009, less an administrative charge of R100. No refunds can be given for bookings cancelled after 15 December 2009.

### Clinical topics

The systematic understanding of Materia medica (plant, animal, mineral)

Materia medica of the „primary period“ (which includes pregnancy, state of birth & infancy).

Acute and chronic cases of new born and young children

The mother-child-unity (forms of application, § 284 Organon)

Treatment and support of children over a longer period, up to puberty.

### Philosophical topics

The journey of the child's soul. Where is she coming from, where is she going to?

Questioning old and new dynamics of diseases.

The meaning of children's diseases in modern times.

Human development under the perspective of anthroposophic spiritual science.

In Germany Anne Schadde & Jürgen Weiland are well known for their teaching and lecturing. After their success in Munich, Berlin & Colorado, they will again present together their individual and common experiences in treating children.

Nourished by their rich experiences out of their own cases and the examination of philosophical and psychological streams (i.e. Rudolph Steiner and C.G. Jung), they will present a vivid seminar concept.

Besides homeopathic know-how, they will illuminate the journey of the child's soul.

For many years both lecturers have been dealing with a systematic understanding of the Materia medica.

Their case presentation will touch many senses, owing to their individualised approach to teaching. Old and more modern methods of case management will find their space during this weekend seminar.
